

How to Create an Overlay in the Template Editor

If you want to create an overlay using the Template Editor, follow these instructions:

1. Under the **Templates** category on the left side of the dashboard, click on the **Template Editor**.

The screenshot displays the Template Editor interface. On the left is a sidebar with navigation links: Dashboard, Campaigns, Templates (selected), Visual Editor, HTML Editor, Template List, Leads, A/B Testing, Billing, Pricing plan, Orders List, and Affiliate. Below these is a red 'FAQ' button. The main area is titled 'New Template' and features a 'Save Template' button in the top right. The central preview shows a blue overlay with a dashed box labeled 'LOGO HERE!', the text 'Wait, we have a special offer', 'Enter your email and get 15% off!', an email input field with the placeholder 'Enter Email Address Here', an orange 'GET MY 15% OFF NOW' button, and a link 'No, thanks. I would rather pay a full price'. Below the preview is an HTML code editor with a dark background and a 'CSS' tab. The HTML code includes a font link, a modal container, a logo placeholder, text lines for the offer, an email input field, a submit button, and a close link. To the right of the code editor is a 'Choose Template' section with four thumbnail previews. Below that is a 'RESOURCES' section with links to 'DATA', 'EVENTS', and 'CONTROLS'.

A preview of what the template looks like is shown at the top of the html code.

2. Change the html code according to your needs.

3. Click the **Save Template** button to save your template and refresh the preview.
