

How to Create an Overlay in the Template Editor

If you want to create an overlay using the Template Editor, follow these instructions:

1. Under the **Templates** category on the left side of the dashboard, click on the **Template Editor**.

The screenshot displays the Template Editor interface. On the left is a dark sidebar with navigation options: Dashboard, Campaigns, Templates (selected), Visual Editor, HTML Editor, Template List, Leads, A/B Testing, Billing, Pricing plan, Orders List, and Affiliate. A red 'FAQ' button is at the bottom of the sidebar. The main area is titled 'New Template' and features a 'Save Template' button in the top right. The central preview shows a blue overlay with a dashed box labeled 'LOGO HERE!' at the top. Below it, the text reads 'Wait, we have a special offer' and 'Enter your email and get 15% off!'. There is a white input field with the placeholder 'Enter Email Address Here' and an orange button labeled 'GET MY 15% OFF NOW'. At the bottom of the overlay, it says 'No, thanks. I would rather pay a full price'. Below the preview is a code editor with 'HTML' and 'CSS' tabs. The HTML code is as follows:

```
1 <link href="//fonts.googleapis.com/css?family=Open+Sans:300italic,400italic,600italic,700italic,800italic,400,300,600,700" rel="stylesheet">
2 <div data-eme="modal-container">
3   
4
5   <div data-eme="text-line-1">Wait, we have a special offer</div>
6   <div data-eme="text-line-2">Enter your email and get 15% off!</div>
7   <input name="email" placeholder="Enter Email Address Here" type="email" required="required">
8   <button data-eme="button" type="submit" class="submit" id="submit-button">GET MY 15% OFF NOW</button>
9   <div data-eme="modal-close-link" class="close Close-link" id="close-link">No, thanks. I would rather pay a full price.</div>
10 </div>
11
```

To the right of the code editor is a 'Choose Template' section with four thumbnail options, the second of which is highlighted with a red border. Below this are two circular icons with '1:04' inside. At the bottom right is a 'RESOURCES' section with 'INFO' and sub-sections for 'DATA', 'EVENTS', and 'CONTROLS'.

A preview of what the template looks like is shown at the top of the html code.

2. Change the html code according to your needs.
3. Click the **Save Template** button to save your template and refresh the preview.
