

How to Change the Default Time for Overlays in Template Editor

You can change the default time for the popup after customers subscribe by following these steps:

1. Under the **Templates** category on the left side of the dashboard click **Template Editor**.
2. Change the value field to your desired values. Note that time is counted in milliseconds (i.e. 15000 = 15 seconds).
3. Click the **Save Template** button to save your template and refresh the preview.

HTML CSS

```
1 <link href="//fonts.googleapis.com/css?family=Open+Sans:300italic,400italic,600italic,700italic
2 <div class="container">
3   <div class="backstitch">
4     <div class="logo">Your logo
5     <h1>Special offer</h1>
6
7     <h2>Get Your Free Coupon!</h2>
8
9     <a class="input in3 redirect" data-em='button' href="http://picreel.com/">use my coupon
10     src='
11     </a>
12     <div data-em='modal-close-link' class='close close-link' id='close-link'>No, thanks. I
13   </div>
14 </div>
15 <input type="hidden" class="message_hide_time" value="15000" />
```
