

# How to Create Popups Using Overlay Editor

To create a popup using the overlay editor, follow these instructions:

1. When you select an overlay, choose any design except the upload design.

A preview of what the overlay looks like is shown at the top of the html code.

The screenshot displays the HTML/CSS Editor interface. On the left, there are configuration options for the popup, including Background Color (#49a9bf), Button Color (#f06d26), Text Color (#ffffff), and H1 Color (#ffffff). There are also options for Overlay fields (Nothing, Email, Email & Name, Email, Name & Phone), Logo position (Left, Center, Right, Hide), and Edit overlay text (Wait, we have a special offer; Enter your email and get 15% off). Below these options is a toolbar with buttons for HTML, CSS, Add element, Text field, Email field, Name field, Phone field, Submit button, Url/Redirect button, and Close button.

The main preview area shows a dark background with a teal rectangular overlay. The overlay contains the text "Wait, we have a special offer" in white, followed by "Enter your email and get 15% off!" in a smaller white font. Below this text is a white input field with the placeholder text "Enter Email Address Here" and a white submit button.

Below the preview area, there is a warning message: "Warning! HTML changes can't be restored". Below the warning is the HTML code for the popup:

```
1 <div data-em="modal-container" class="container" data-template-type="collect-email">
2   <div class="logo-container hide-logo">
3     
4   </div>
5   <div data-em="text-line-1" class="text-line-1">Wait, we have a special offer</div>
6   <div data-em="text-line-2" class="text-color">Enter your email and get 15% off!</div>
7   <div class="template-inputs">
8     <input name="email" placeholder="Enter Email Address Here" type="email" required="required">
9   </div>
10  <button data-em="button" type="submit" class="submit btn-bg-color" id="submit-button">GET MY 15% OFF NOW</button>
11  <div data-em="modal-close-link" class="close close-link text-color" id="close-link">No, thanks. I'd rather pay a full price</div>
12 </div>
```

2. Change the html/css code according to your needs.

3. Click the Save button to save your design.
