**How to Change the Display Time for the Closing Message**

Picreel lets you decide the duration for displaying the customized message after a user has accepted your offer.

Showing the tailored message for a few seconds can provide users with a delightful experience after a user has accepted your offer.
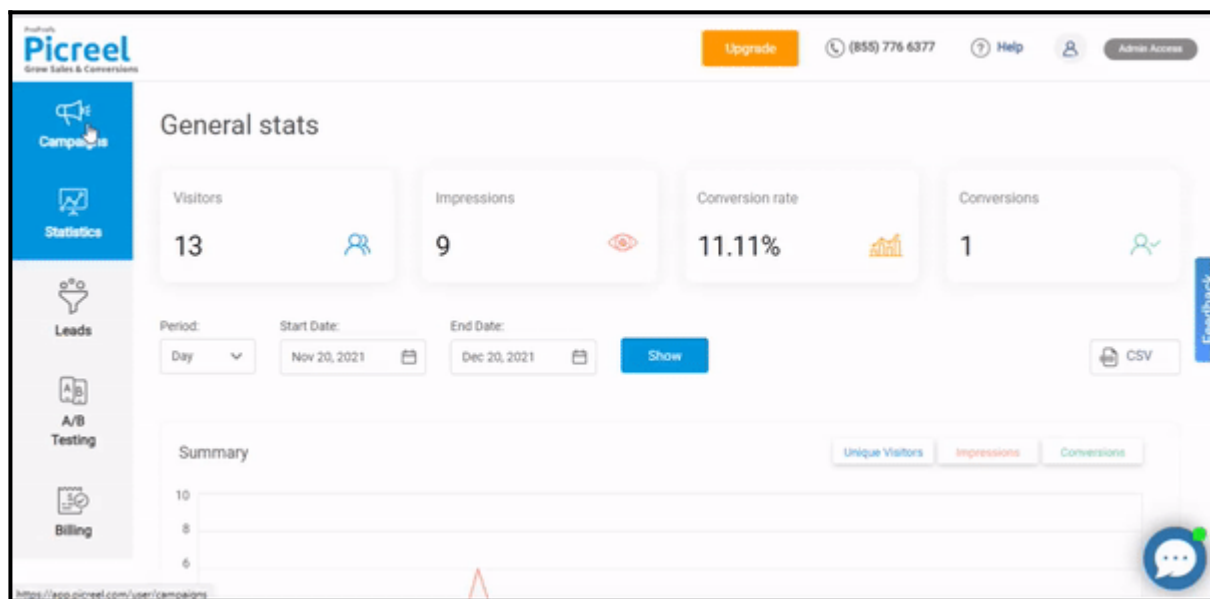

Here's an example of a closing message:

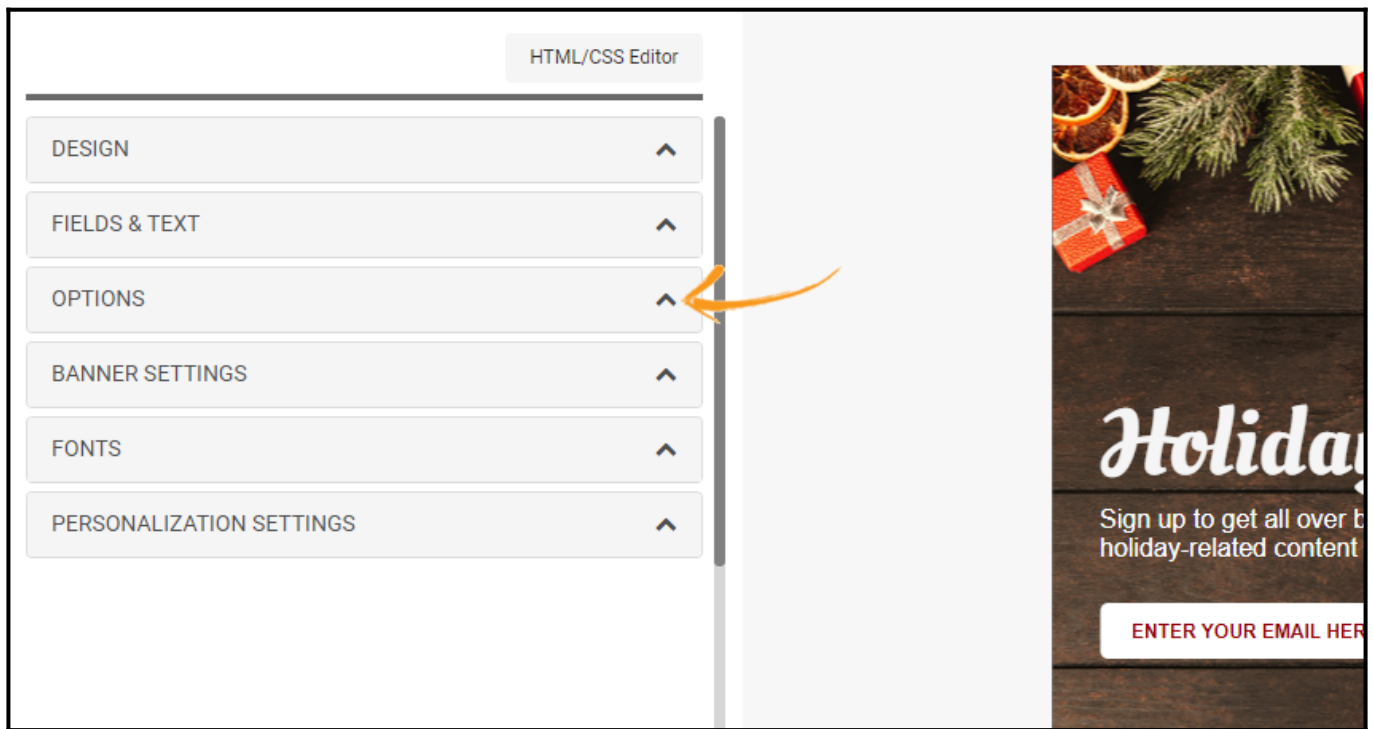

In this article, you'll learn:

1. **How to change display time in the design editor**
2. **How to change display time in the template editor**

How to Change Default Time in the Design Editor
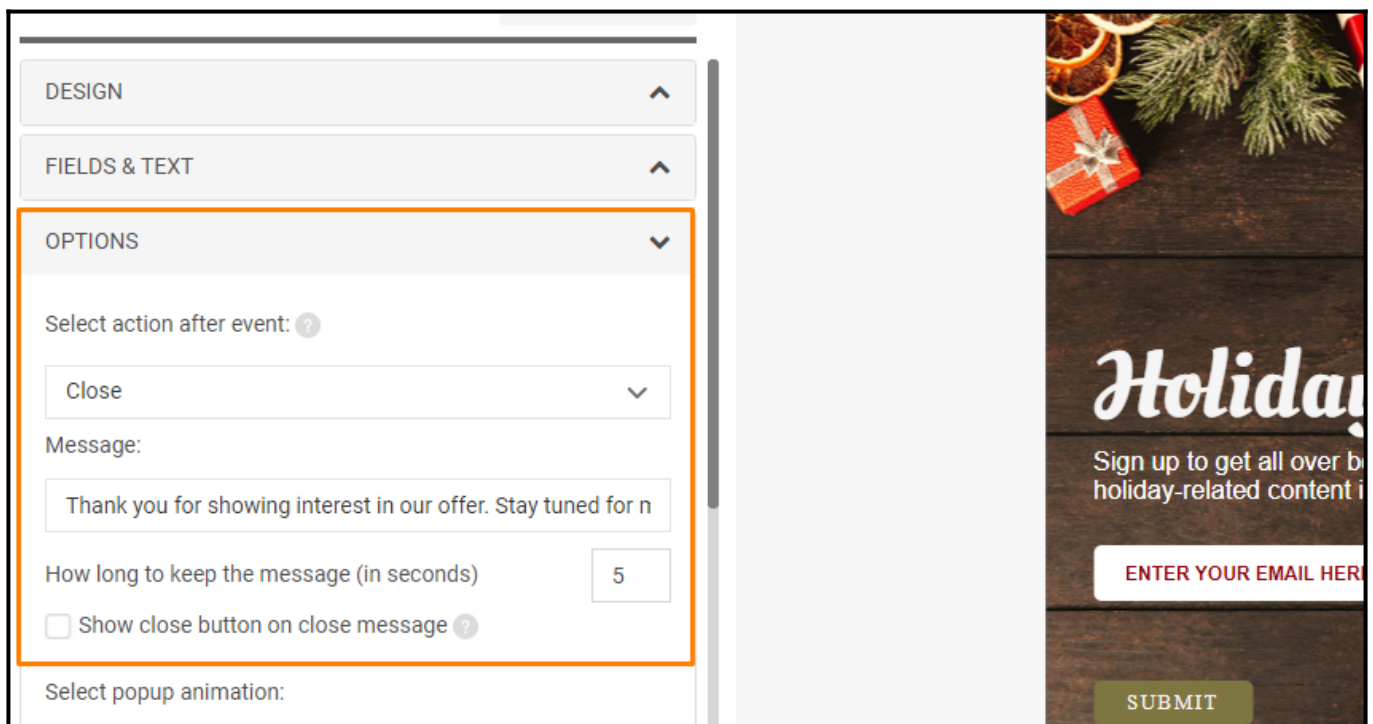

Step 1: Go to **Campaigns >> Edit**

Step 2: Click '**Options**' on the left panel to open the drop-down menu.

Step 3:

- Select '**Close**' from the drop-down under '**Select action after the event.**'

- **Enter** your message

- Change the value in the '**How long to keep the message (in seconds)**' field.

For example, "**5**" makes an overlay display for **5 seconds** after a user has clicked on the **submit button.** A close message is displayed during this time.
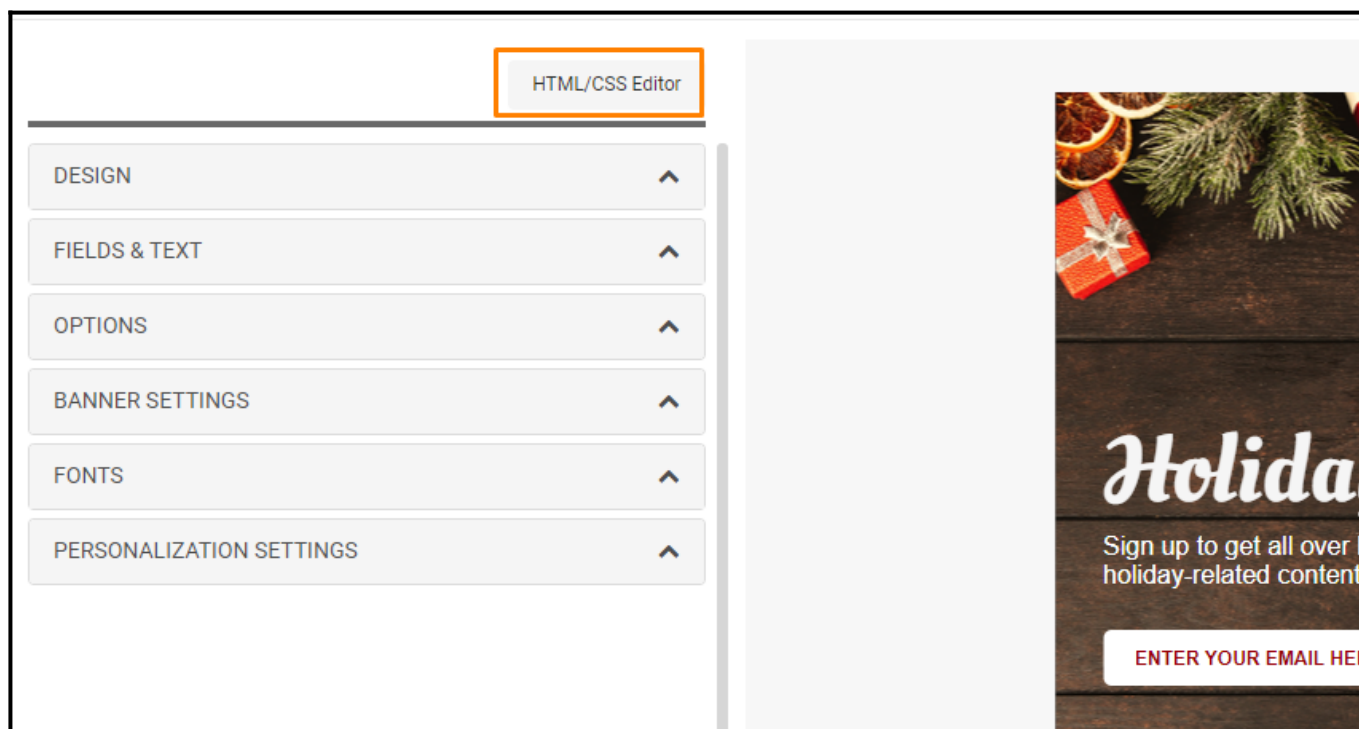

Step 4: Click '**Save**' to finalize the changes.
How to Change Default Time in the Template Editor

Step 1: Go to **Campaigns >> Edit**

Step 2: Click '**HTML/CSS Editor.**'

Step 3: Change the **value field** to your desired value.
Note that time is counted in **milliseconds** (i.e., **5000 = 5 seconds**).

```
5   <div class="container" data-template-type="holiday">
6     <div data-em="modal-close-link" class="close close-full-width close-x" id="close-link-x">×</div>
7     <div class="inner-container">
8       <div data-em="text-line-1" class="text-line-1">Holiday Vibes</div>
9       <div data-em="text-line-3" class="text-color"> Sign up to get all over best<br>holiday-related content in your in
10      <div class="template-inputs">
11        <input name="email" placeholder="Enter your email here" type="email" required="required">
12      </div>
13      <p>
14       </p>
15      <div data-size="normal" data-theme="light" id="picreel-recaptcha" style="margin: 10px auto;display: inline-block;
16       </div>
17      <button data-em="button" type="submit" class="submit btn-bg-color" id="submit-button" target="">submit</bu
18
19    </div>
20  </div>
21  <input type="hidden" class="message_hide_time" value="5000">
22  |
23  <input type="hidden" name="hide_close_frame" value="1"><!-- Required input. Please, do not delete -->
24  <input type="hidden" name="popup_size" value="{'width':'500', 'height':'500'}"><input type="hidden" name="close_m
25
```

> **Note:** Seek the developer's assistance for this step

Step 4: Click '**Save**' to finalize your changes.
That is all about setting the timer for displaying the 'close' message after action by the user.
