

'One Button' Overlay in the Upload Design

Using Picreel's Upload Design editor, you can easily upload your own image, or you have the option to select between Picreel's ready-made templates.

*Available image formats: PNG, JPG; Size: 800x500 px (Image will be auto-resized if different)

You can create "One Button" template by following these instructions:

1. Log in to your Picreel account.
2. Choose the *Upload Design*, when you select an overlay.

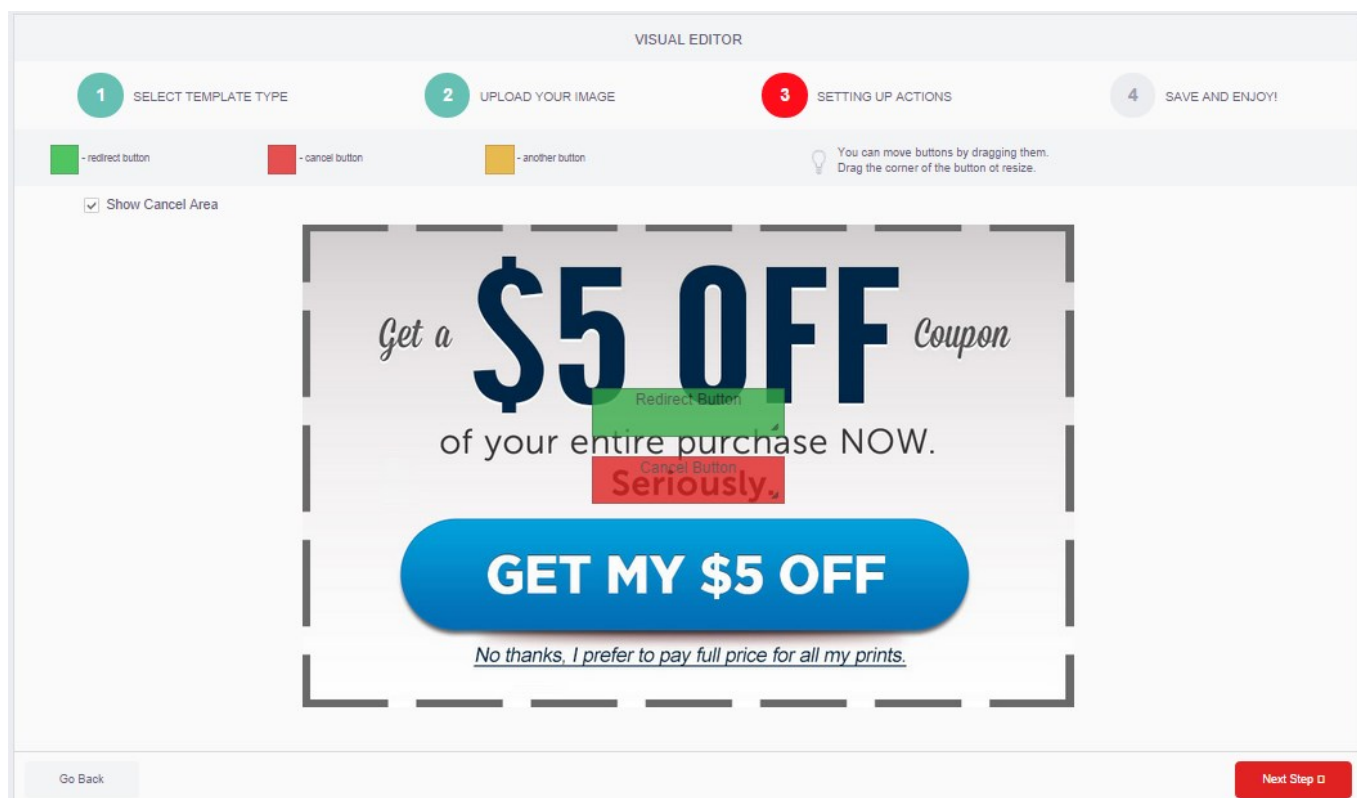

The screenshot shows the 'VISUAL EDITOR' interface at Step 1: 'SELECT TEMPLATE TYPE'. At the top, there are four numbered steps: 1 (red circle), 2 (grey circle), 3 (grey circle), and 4 (grey circle). Below the steps, there is a 'Template Name:' label and a text input field. Underneath, it says 'Select template type:' and shows two template options: 'One button' (with a green bar) and 'Collect Email' (with a green bar). A red 'Next Step >' button is located at the bottom right.

3. Click the *Upload Image* button to upload a custom image from your computer or choose from our free designs on the *Select design* dropdown box. Your selected image should appear on the screen. Click the *Next Step>* button.

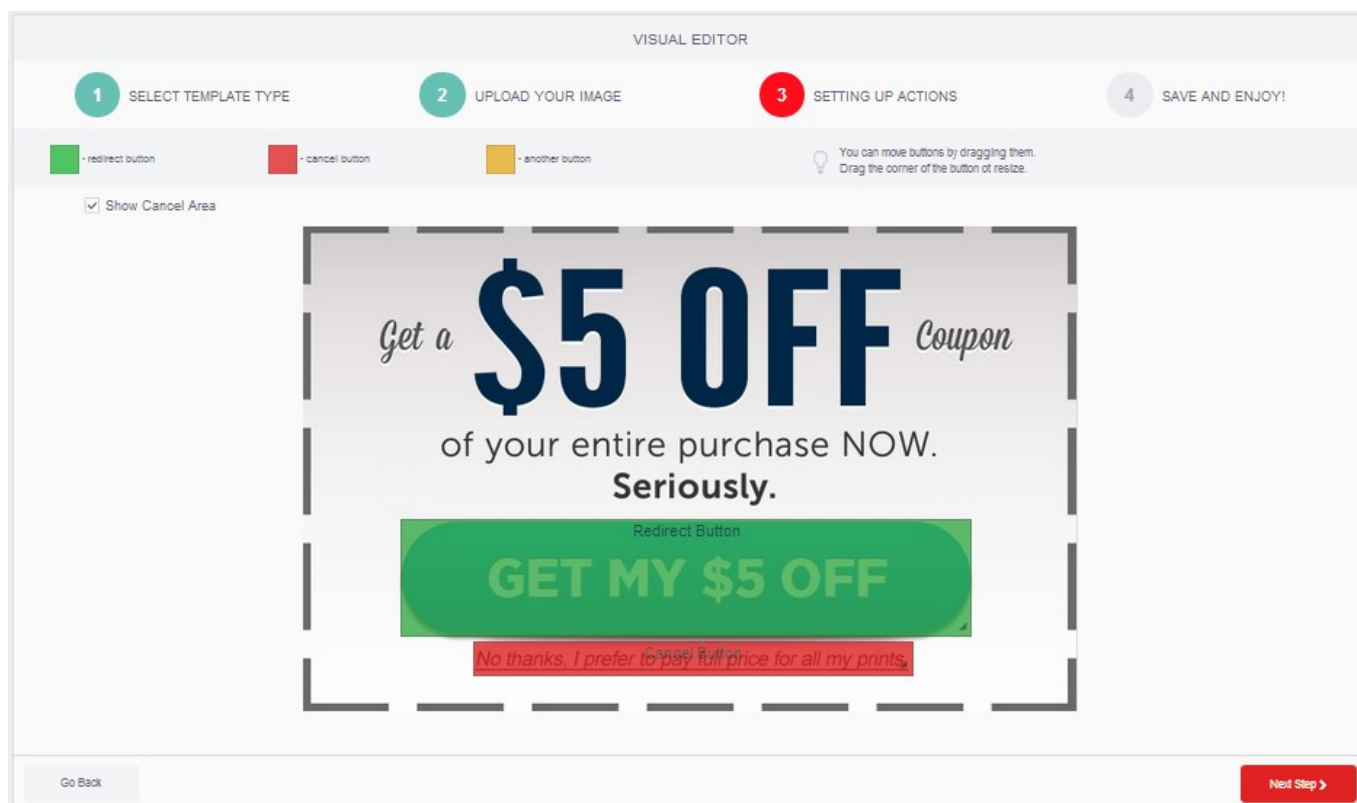

The screenshot shows the 'VISUAL EDITOR' interface at Step 2: 'UPLOAD YOUR IMAGE'. The steps at the top are: 1 (green circle), 2 (red circle), 3 (grey circle), and 4 (grey circle). Below the steps, there is a red 'Upload Image' button. To its right, it says 'Available formats: PNG, JPEG. Size must be: 800x500px (auto-resize is different)'. Further right is a dropdown menu labeled 'or select design:'. Below these elements is a large grey rectangular area representing the design canvas.

Two boxes will appear on your screen. The Green box (labeled *Redirect Button*) represents your template's "Submit" button - which will be the one users can click in order to be brought to another page. The Red box (labeled *Cancel Button*) represents your template's "Cancel" button - which will close the pop-up. You can disable the Cancel area by ticking off the *Show Cancel Area* checkbox.

1. Drag the green box and the red box to the area of the template that you wish to use as a *Submit* button and a *Cancel* button respectively. You can resize the boxes using the arrow on its lower left corner. Your screen/template should look something like the one shown below. Once you're done, click on the *Next Step*> button.

1. Type in the link to which your “Submit” button should redirect visitors. Click the *Create* button.
1. To see your newly created template, you will be redirected to the *Available Templates* screen. Click the *Preview* button beside the name and status of the template you want to view. The preview should pop-up on your screen.

Congratulations! You’ve now created your “One Button” template.
