

How to Create a Banner

You can add a tiny banner (or image) that will sit in any corner of your screen. Once your visitors click on it, your popup design will appear.

To add a banner to your campaign, click on *Banner* section when you're editing your popup.

The image shows a user interface for configuring a banner. It features a vertical list of menu items: DESIGN, FIELDS, OPTIONS, and BANNER SETTINGS. The BANNER SETTINGS section is expanded, showing the following options:

- Style:** A dropdown menu currently set to "Corner".
- Position:** A 3x3 grid where the top-left cell is shaded dark grey, indicating the banner's placement.
- Background Color:** A color picker showing a yellow color with the hex code #eff23d and a "Reset" button.
- Text Color:** A color picker showing a black color with the hex code #030303 and a "Reset" button.
- Text:** A text input field containing the text "Sign Up!".

At the bottom of the settings panel, there is a red link that reads "Learn how to use a banner".

You can change colors and texts. Also, you can upload a small image that will be your banner.
