

How to Add Captcha Verification to Website Overlays

Picreel lets you protect your email list from spam and fake emails by adding a Google captcha to your popups.

Benefits of adding captcha verification:

1. **Filter out** bots to build credible leads data
2. **Prevent websites/email lists** from spam and abuse

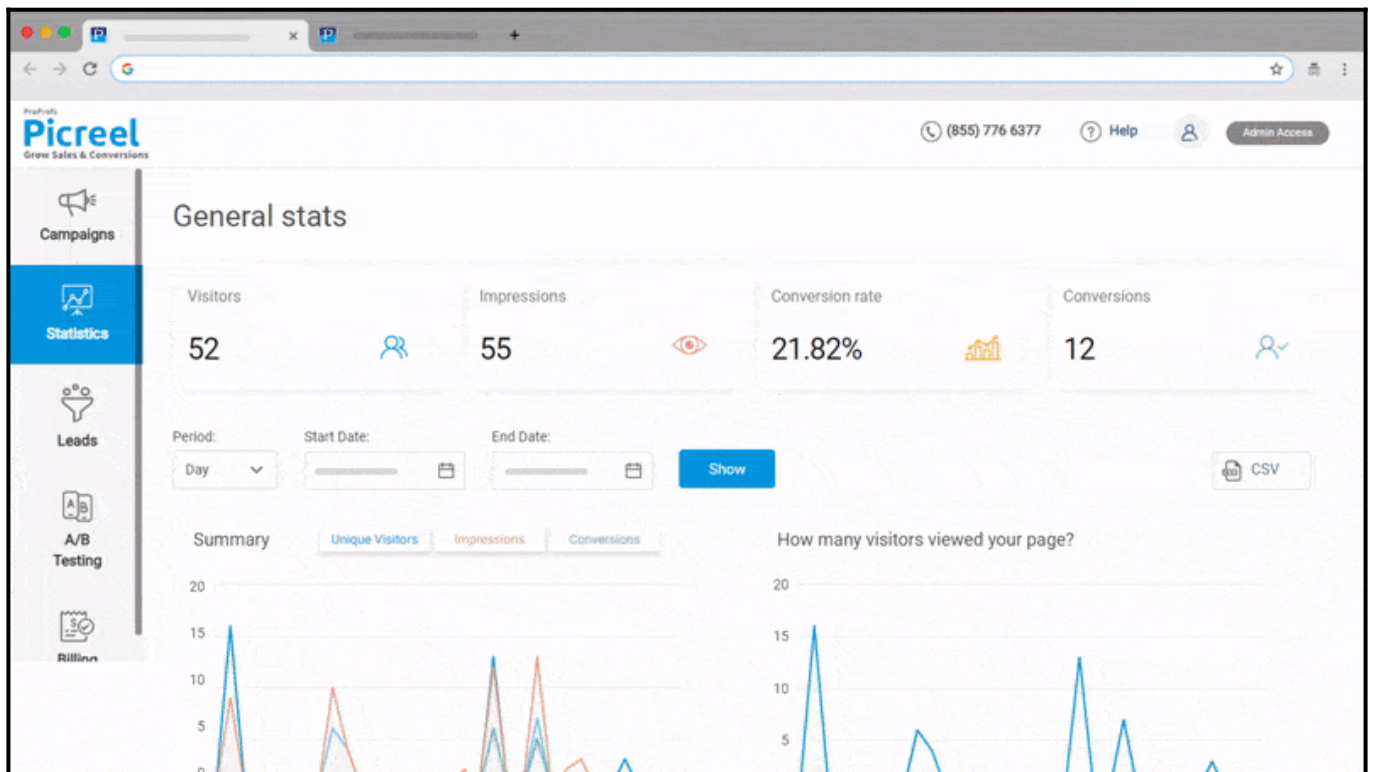

Here's what an overlay will look like with the reCAPTCHA verification:

To add the feature:

Step 1: In your Picreel account,

- Navigate to the '**Edit Design**' section of your campaign
- Open **HTML/CSS Editor**

Step 2: In the HTML/CSS editor,

Paste this line of code where your captcha should appear:

```
<p>&nbsp;</p>
```

```
<div data-size="normal" data-theme="light" id="picreel-recaptcha" style="margin: 10px auto; display: inline-block;">
```

```
&nbsp;</div>
```

```

1 Please, do not delete it and such classes for elements like submit, redirect, close.
2 Template will work uncorrect or not work at all. You can do it for your own risk. -->
3 <link href="https://fonts.googleapis.com/css?family=Oleo+Script+Swash+Caps&display=swap" rel="stylesheet">
4 <div class="container" data-template-type="holiday">
5   <div data-em="modal-close-link" class="close close-full-width close-x" id="close-link-x">x</div>
6   <div class="inner-container">
7     <div data-em="text-line-1" class="text-line-1">Holiday Vibes</div>
8     <div data-em="text-line-3" class="text-line-3" style="text-color:> Sign up to get all over best<br>holiday-related content in your inbox.</div>
9     <div class="template-inputs">
10       <input name="email" placeholder="Enter your email here" type="email" required="required">
11     </div>
12   </div>
13   <p>
14     &nbsp;</p>
15   <div data-size="normal" data-theme="light" id="picreel-recaptcha" style="margin: 10px auto; display: inline-block; margin-top: -45px">
16     &nbsp;</div>
17   <button data-em="button" type="submit" class="submit btn-bg-color" id="submit-button" target=" " >submit</button>
18 </div>
19 </div>
20 </div>
21 <input type="hidden" name="hide_close_frame" value="1"><!-- Required input. Please, do not delete -->
22 <input type="hidden" name="popup_size" value="{width:'500', height:'500'}">

```

Note: Seek the developer's assistance for this step

Step 3: Click 'Save' to activate the reCAPTCHA

That is all about adding Google-captcha verification to your overlays.
